## 30 Day Public Notice Report

---

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director  
Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Application # : FW-22156

Stream : White River

Applicant : North Lawrence Water Company  
Phil Hawkins  
116 Bailey Scales Road  
Bedford, IN 47421-9249

Description : The proposed project consists of construction of two (2) new 500 gpm water supply wells and a new water treatment facility. The new wells will be located in an existing wellfield and construction will temporarily disturb less than 0.01 acres. The well platform will be located 3' above the 100-year flood elevation. The new water treatment plan building, finished water clearwells and detention tanks will be located above the 100-year flood elevation. However, as part of the treatment plan, two (2) backwash tanks and a seepage bed will be constructed to collect the backwash waste. The north backwash tank will be constructed near the 502' elevation, which is the 100-year elevation. The tanks are 46' in diameter. The seepage bed will be approximately 115' x 110' x 5' deep. Details of the project are contained in information and plans received at the Division of Water on December 10, 2002.
